### About

Full-Stack Software Engineer with **7+ years** of experience building web and mobile products. Led teams of 2–40 people, including 2+ years in technical leadership roles, while also working independently and within Agile/Scrum teams. Strong track record in end-to-end product development, from requirements gathering and system/UI design to automated releases.

Beyond engineering, brings a **strong product mindset** supported by formal design training and 5+ years of hands-on marketing experience in UX/UI, onboarding, user acquisition, and growth initiatives. Acts as a strategic bridge between engineering, product, design, and marketing, ensuring business objectives are translated into technical execution.

Regularly experiments with AI tools to accelerate development. Over the last year, leveraged GitHub Spec Kit to design and deliver all major product features from technical specifications I authored, resulting in 6 key product features that contributed to a **64% increase in sales**.

### Skills

**Front-end:** React · Next.js · Angular · TypeScript · Redux · Prime NG · Material UI · Atlassian · Angular Material · Tailwind CSS

**Back-end:** Node.js · Nest.js · Express.js · Hapi.js · PostgREST.js · PostgreSQL · MongoDB

**Mobile:** React Native · Expo · EAS · React Navigation · React Query · Reanimated

**DevOps:** Docker · Git · Heroku · Netlify · NX Monorepo · AWS S3 · AWS EC2 · AWS IAM · AWS VPC + others

**AI:** Cursor · Claude Code · Copilot · OpenAI API

**Other:** SEO · Google Ads · GTM · Google Analytics · Auth0 · Clerk · WordPress · Jira · Sentry · Figma

### Experience

Livee — [www.livee.com](http://www.livee.com)

Paris, France

Full-Stack Software Engineer / Product Engineer

03/2022 - Present

**Technologies:** TypeScript, React, React Native, Material UI, Hapi.js, Nest.js, PostgREST.js, PostgreSQL, Auth0, Heroku, Netlify, AWS.

- **Designed and developed 3 React-based admin dashboards** covering full event management workflows (events, users, registrations, etc.).
- Rebuilt an event platform website from React to Next.js, establishing a reusable component architecture and responsive UX.
- Migrated 200+ event management screens from Atlassian UI to MUI to standardize UI system, reduced development time by ~30%.
- Built CSV/XLSX import-export pipelines for event data, reducing manual data entry workload by ~50%.
- Built a custom event page editor → 22% of users adopted it after release, increasing platform self-service usage.
- Owned and evolved **2 React Native (Expo) apps** over 4 years, regularly adopting Expo innovations.
- Replaced 2 core Hapi.js API services with a modernized architecture and introduced 2 new production services → improved maintainability.

BYTABO Digital Crew — [www.airportliner.com](http://www.airportliner.com)

Bamberg, Bavaria, Germany

Full-Stack Software Engineer

03/2021 - 03/2022

Time-bound platform migration project, followed by a transition to a new project through a referral from the CEO.

**Technologies:** TypeScript, React, Angular, RxJs, Express.js, PostgreSQL, MUI, Angular Material, Heroku, Playwright.

- **Redesigned and rebuilt the taxi booking website** using React, introducing Material Design 2 with a strong focus on accessibility.
- Built a taxi order management platform for operators using Angular, improving **order processing speed by 3x**.
- Integrated address search and autocomplete using Google Places API, expanding supported customer locations by 300%.
- Designed and implemented a promo and discount system for taxi customers, increasing marketing campaign frequency by 2x.
- Covered the 6 most complex business flows with Playwright E2E tests, validating end-to-end user journeys.

Be | Shaping the Future Ukraine — [www.ua.be-tse.com](http://www.ua.be-tse.com)

Kyiv, Ukraine

Frontend Developer

04/2019 - 02/2021

**Technologies:** JavaScript, TypeScript, Angular, Pug, SCSS, PrimeNG.

Led development responsibility for a fintech banking app with complex multi-form screens and heavy business logic, requiring product-level understanding of banking workflows.

Transitioned to a full Node.js stack role to deepen backend expertise and grow as a full-stack developer.

### Education

Taras Shevchenko National University → Institute of Mathematics, NAS of Ukraine

Kyiv, Ukraine

M.Sc. in Mathematics, Postgraduate Studies | 10+ years of advanced mathematics education
